IN THEIR OWN WORDS: Sovereign Silver PETS Bio-Active Silver Hydrosol for Immune Support & Allergy Relief is a Health Supplement for Pets. Silver has been used to promote health for more than 2,400 years. Long before modern medicine, silver was used for a broad range of applications in health. It's part of the natural world around us, and even part of an animal's diet as a trace mineral found in whole grains, water, mushrooms, and mammalian milk.

WHAT MAKES THIS PRODUCT SPECIAL? Sovereign Silver PETS sets the industry benchmark with its purity, safety & quality. Its manufacturer is verified by the National Animal Supplement Council (NASC), the only product in the category having achieved such a high level of certification. Our products are extensively tested by 3rd party laboratories for absence of Aflatoxins, Fumonisin and Vomitoxins, to make sure it is safe for your furry friends.

WHAT THEY'RE KNOWN FOR: Compliance with NASC & FDA regulations ensuring ultimate product quality & safety. Since 2005, Sovereign Silver is the #1 Selling Silver Brand in the U.S., serving over 6,500 retailers. We operate with ethical manufacturing and labeling practices.

#1 SELLING SILVER BRAND IN THE U.S. SINCE 2005

PETS

Because Family IS EVERYTHING

NATURAL

Silver is a naturally occurring mineral which is already a part of an animal's diet.

PURE

Only two ingredients: 99.999% pure silver and pharmaceutical-grade purified water.

BIO-ACTIVE

Our tiny particles (as small as 0.8 nanometers) result in a formula that is >98% bio-active, meaning they're packed with positive energy and ready to go to work.
