

TUCKER'S FROZEN & FREEZE-DRIED

Pleasant Prairie, WI

W: mytuckers.com / E: info@mytuckers.com

IN THEIR OWN WORDS:

Tucker's Freeze-Dried Raw Formulas for dogs offer complete and balanced nutrition for all life stages. These formulas are made up of 95% meat, organ, bone and marrow with 5% pumpkin, a low glycemic fiber source, that offers digestive support. This support is especially helpful when transitioning your dog to a raw diet. We use human-grade meats sourced in the U.S. so you know your dog is getting the best. Buy 10 get one free through ASTRO.

WHAT MAKES THIS PRODUCT SPECIAL? Freeze-Dried Formulas use a special probiotic blend to control pathogens and do not undergo high pressure processing. Their unique domino shape makes for a three-in-one product (feed, treat, or top) and functions as a great add-on product for on-the-go customers while hiking, camping or traveling with their pup.

WHAT THEY'RE KNOWN FOR: Tucker's, a family-owned company from Wisconsin, is known for providing the freshest raw diets for pets with individually wrapped and vacuum-sealed Raw Frozen Patties.

RETAILER REVIEW: "We like Tucker's Freeze-Dried as it's easy to feed (it wicks up moisture easily), add as a topper (great for extra protein and taurine) or as a treat. A plus is they are made in Wisconsin which is where we are based." — Paula Gorman, Pet Supplies 'N' More, Muskego, WI
