IN THEIR OWN

WORDS: The ultimate seafood feast for felines! Tiki Cat® Grill Pâté wet cat food offers the high-protein, high-moisture nutrition cats need as carnivores. Real, flaked fish, and savory broth are mixed and minced to perfection in the soft pâté form cats love. All ingredients are 100% non-GMO, with no fruits or vegetables, grains, carrageenan, artificial colors, flavors or preservatives. This fish-only range comes in a variety of flavors for even the pickiest of cats.

WHAT MAKES THIS PRODUCT SPECIAL?

Tiki Cat Grill Pâté takes the legacy Grill recipes made with indulgent flaked fish, luscious broth, and shellfish garnishes and transforms them into another winning format. These finely minced pâtés combine a texture cats love with top selling fish proteins to make them a quick favorite for both cats and their owners.

WHAT THEY'RE KNOWN FOR:

Tiki Cat is the carnivore diet cats were born to eat. That's why Tiki Cat foods offer high protein nutrition from real animal protein sources, high moisture for supplemental hydration, low to no carbohydrates and zero grains.

RETAILER REVIEW:

"Whitebridge Pet Brands has been an amazing partner of ours for many years. They have a great assortment of products to choose from and are always innovating. The Tiki Cat Grill Pâté diets are a great example of introducing a product format and flavors that cat owners are

looking for. From their pet foods to treats and supplements, they have something for everyone. We appreciate their commitment to the Independent Pet Specialty channel and continuing to grow our business together."
— Scott Tenner, Marketing & Merchandising Director, Reber Ranch, Kent, WA
