**RETAILER REVIEW:** "Heavenly Hounds was a surprising smash hit during our test and chainwide rollout at Petsense. We quickly had many stores selling out and turning over their inventory every two weeks. It is the most affordable way for a customer to try a calming supplement without spending money on collars and diffusers. Heavenly Hounds made my supplement buyer look like a genius. We wish every item performed as well." — *Josh Patterson, former VP Merchandising, Petsense*
