IN THEIR OWN WORDS: Here at Team Treatibles we believe no pet should be without CBD, so we've recently launched some new products that are not only effective for your pets, but also friendly to your wallet! Treatibles' new Extra Strength products for cats and dogs, in both Hard Chews & Soft Chewables, are a great way to deliver consistent and reliable serving of CBD with flavors your pets will love!

WHAT MAKES THESE PRODUCTS SPECIAL? Quality and price point are what makes these products stand out in the marketplace. Many pet parents complain of having few affordable choices for pets needing a stronger serving of CBD. Pet parents can now relax, knowing they have options for keeping their pets happy and healthy without compromising quality.

WHAT THEY'RE KNOWN FOR: Treatibles is known for exactly what our tagline says: Harmony For The Whole Family! We are truly committed to making the household more comfortable for all!
