IN THEIR OWN WORDS: Annamaet is proud to add Enhance to their line of canine supplements carrying the NASC seal. Annamaet Enhance was formulated with two Board-Certified Veterinary Nutritionists to balance a dog's home cooked meal or raw diet. This special formulation will assist in meeting the current requirements for any lean meat-based diet, or those with added vegetables, fruits, oils or grains. It is manufactured at a U.S. human-grade facility with human-grade ingredients.

WHAT MAKES THIS PRODUCT SPECIAL? Annamaet Enhance is a unique vitamin and mineral supplement designed to help balance a dog's raw or home-prepared diet. This supplement stands out as 60% of home prepared diets are deficient in at least one nutrient. Enhance helps prevent common deficiencies by providing the necessary vitamins and minerals in highly absorbable forms.

WHAT THEY'RE KNOWN FOR: Annamaet Petfoods is well known for trustworthy science backed nutrition as each formula is derived from four decades of research in nutrition and hands-on experience with canine athletes.

Annamaet Enhance is designed to help balance a dog's raw or home-prepared diet. **MSRP: \$59.99 (8.5oz)**

RETAILER REVIEW: "Annamaet Petfoods has proven to me consistently that they are a brand with non-negotiable standards. Their mission is simple and their products deliver."
