IN THEIR OWN WORDS:

The SofterWalk Harness is a no-pull dog harness that's designed to give both your dog and you a smoother, more comfortable walk. Great for dogs that pull, these harnesses come with two D-rings – one on the front, which helps guide the dog towards you when they try to pull and one on the back for use as a traditional harness. A soft padded control handle allows for extra control when it's needed. This fully adjustable harness comes in 3 sizes (small, medium and large), is easy to put on and has a four-point buckle to ensure your dog is always safe. MSRP: \$26.99 - \$35.99.

WHAT MAKES THIS PRODUCT SPECIAL?

The SofterWalk harness is more than a no-pull harness with a front D-ring. It provides the flexibility to use it as a traditional harness when pulling is no

longer an issue (with the help of a back D-ring) and was specifically designed to keep walks smooth and comfortable. With the ability to fully adjust the fit, a padded grab handle for control when it's needed, a secure four-point buckle for safety and vibrant colors that are hard to miss, this harness scores big on comfort, safety, and style.
