# AUSTIN AND KAT

Seattle, WA

P: (206) 446-4819 / E: hello@austinandkat.com / W: austinandkat.com

## TELL US ABOUT YOUR ENVIRONMENTAL IMPACT INITIATIVES:

Making everything ourselves at the Makery means we have a chance to reduce our environmental impact across many areas, including purchasing, manufacturing and shipping. In 2023 we are converting production to electronic recordkeeping and are creating a paperless warehouse. We're also moving to carbon-neutral shipping with Sendle.

## WHAT ARE YOUR RESPONSIBLE MANUFACTURING STANDARDS?

Everything we create at Austin and Kat is literally made for our own pets, so we do it properly! By focusing on the finest ingredients and environmentally responsible sourcing, we maintain the highest possible standards that reflect our love and commitment for our four legged friends, and yours too.

## AS A PSC MEMBER, WHAT ARE YOUR SUSTAINABLE GOALS?

We're proud to be female-founded and remain a 100% employee-owned company, and Austin & Kat's sustainability goals are a collective vision. We're committed to giving back to our employees and the environment, fostering a responsible and compassionate approach that resonates with our dedication to community, well-being and earth-friendly practices.

## RETAILER REVIEW:

"Kat and the team are super knowledgeable. They source and manufacture everything in an intentional way and can speak to every aspect of the product, so I can always get the answers I need for my customers." — Lindsay Poirier, Dirt Dawg Co., Telluride, CO.
