## WE BABY YOUR PET™

Founded in 1933, our company started manufacturing newborn bedding and apparel. We have been privileged over our 90+ years history to have the trust of millions of parents and families bringing our products into their homes. Always having a passion for our pets, in 2013 we created a line of pet products under the same formula we had for baby: build trust; a commitment to quality; give back to the community; and exceptional customer service. As it turned out this was exactly what pet parents were in search of.

**As a family business, we focus on independent pet retailers and do not sell to e-commerce giants or big box retailers. We commit to listening, innovating, and executing to add value to our distributor and retail partners as well as our local pet communities.**

*"We had just had our puppy sleeping on a blanket in her crate, but we decided to give a bed a try. We couldn't believe how easy it made crate training. She immediately entered her crate with zero coaxing (we used to lure her with toys and treats) and promptly fell asleep. She loves her new bed!"*
