Chestnut & Co. Pet Eyes Cleaning Wipes

Chestnut & Co. Pet Oral Gel

## In the brand's own words:

Chestnut & Co. emerges as the ultra-premium evolution of the HICC PET legacy, redefining the very essence of the Caregiver. We elevate functional hygiene into a lifestyle of "Care, Refined." To us, a Caregiver provides meticulous, high-standard devotion that treats pets as family. By bridging science-driven innovation with an aesthetic of understated luxury, we have curated a sanctuary of care. Our mission is to weave professional science into the intimate rhythms of daily life, ensuring your companions thrive in comfort, elegance, and enduring health.

## Why did Chestnut & Co. get into the pet industry?

Our journey began with a single rescue: Chestnut, the fragile soul who became our first "Care Receiver." His recovery taught us that true health is built on the smallest, most intentional daily details rather than merely reactive repair. Inspired by the kitty we

NEW! Chestnut & Co. Care System

Final packaging coming soon.

nurtured, Chestnut & Co. represents the pinnacle of that vision. We entered the premium sector to transform pet wellness from "mechanical maintenance" into an artful pursuit of a better way of living. Guided by our responsibility as caregivers, we offer pets the same standards of safety and grace we demand for ourselves.

## What's new?

We are proud to unveil a leap forward in professional-grade home wellness: the Vet-formulated ingredient upgrade. This inaugural collection reimagines daily hygiene as a spa-like ritual, featuring our signature Glove Wipes enhanced with ergonomic 3D silicone massage nodules. Specially designed for pet

families, the cleaning wipes usher in a comprehensive, preventative healthcare ritual. Chestnut & Co. integrates rigorous production standards with "wellness-first" design. We ensure your pet's skin, coat, and senses stay in optimal comfort every single day.

## What makes this product/product line special?

Chestnut & Co. embodies a rare balance of potency and gentleness. At its heart is our biotech integration: proprietary CocoPlex™ Fermented Coconut Oil paired with lick-safe Purified Hypochlorous Acid that mirrors a pet's natural immune response. Beyond formulation, distinction lives in the details: patented 3D silicone nodules that transform cleansing into a gentle ritual. We provide professional-grade care through a stress-free, streamlined ritual: no alcohol, no harsh chemicals — only pure, vet-led formulations that honor a pet's delicate biology. It is where a Caregiver's devotion meets its most refined, professional expression.
